Shortage of Coal Felt By Butte Householders

BUTTE, Mont., Nov. 3.—Shortage of coal is being felt by householders here today, and coal dealers after a meeting announced they favored the city taking over the available supply of coal and distributing it in small lots. The local supply is said to be small. Eleven cars of coal received here yesterday were taken by the railroads.

The mines in Butte are operated by hydro-electric power.

LET "DANDERINE" SAVE YOUR HAIR

Get rid of every bit of that ugly dandruff and stop falling hair.

To stop falling hair at once add to the scalp of every particle of dandruff, get a small bottle of "Danderine" at any drug or toilet counter for a few cents, pour a little on your head and rub well into the scalp. After several applications all dandruff usually goes and hair stops coming out. Every hair in your head soon shows new life, vigor, brightness, thickness and more color.—Advertisement.

Officer Arrested For False Labelling Of Liquor Shipments

CHICAGO, Nov. 3.—A warrant for the arrest of Francis T. A. Junkin of Chicago, appointed a month ago a member of the contract adjustment board in Washington with a rank of lieutenant colonel in the regular army, was issued here today on a charge of having falsely labelled shipments of liquor.

Internal revenue agents found the liquor concealed in the trunks of two expensive motor cars which Mr. Junkin had consigned to Washington. Two shining brass-studded boxes, labelled "whiskey," were found in the trunks of the cars.

Inquiries at the Junkin home disclosed that Mr. Junkin and his wife had left for Washington Friday. Government officials in Chicago are awaiting word concerning the detention of Ross Butler and his wife, who are said to have left Chicago carrying a large quantity of liquor with them. Butler is Mr. Junkin's chauffeur. Federal officials also are looking for a Miss Burns, Mr. Junkin's secretary, who left for Washington with four trunks.

UTAH STANDS HIGH IN RECORD OF RED CROSS GIFTS

Utah has been well up towards the top in the record of the states regarding Red Cross gifts. The total of the Red Cross drives in the past amounted to \$273,239,768.98 or \$2.37 per capita. Utah contributed in these two drives \$1,161,275.69 or \$2.56 per capita. Utah thus led the national record by 19 cents per person. Delaware led the nation in per capita gifts, her amount being \$15.09 per person.

Utah has 102,851 persons who are members of the Red Cross or 22.59 per cent of her population are Red Cross members. This is of the adult membership for the children have done much better for 36.45 per cent of the school children are Red Cross supporters by junior memberships.

Of every dollar given to the Red Cross drives \$3.83 cents was spent for actual relief work.

Within the past month the American Red Cross, according to local roll call officials, has been called upon to provide various large appropriations to carry on its activities in this country and abroad. One of the most recent appropriations was for \$216,000 to carry on its camp service in this country. Camp service includes work in the hospitals of the country, wherein there are still 30,000 soldiers, ill or convalescing.

Although it is not realized by many people, the canteen service of the Red Cross has just appropriated \$210,000 to carry on this particular activity until the end of the year.

Fighting typhus. Among the other large appropriations that the Red Cross has been called upon to make is \$1,800,000 to combat the spread of typhus, which is claiming thousands and thousands of lives in Serbia.

The Red Cross also has set aside a substantial appropriation to give its services to the soldiers along the Mexican border. Much of the relief and recreational activity of the Red Cross in the border region is carried on by the personnel of the mountain division, with headquarters in Denver.

The government has just recently turned over to the Red Cross more than \$10,000,000 worth of food and medicine for distribution overseas. Part of the fund of \$15,000,000 that the Red Cross will raise in a nationwide campaign, will be devoted to the administration of these supplies.

Ethel Clayton's Beautiful Complexion

That splendid actress now appearing under the Pershing banner is famous for her beautiful complexion. She attributes her wonderful skin to the use of a simple test article called Derrville. There is nothing like it for tan, freckles, shiny nose, yellow, dark, rough skin. It takes the place of face powder, stays on better, as perspiration does not affect it, and it instantly beautifies the complexion. One application proves it. If you want a nice, white, skin with rosy cheeks, get a bottle of Derrville. It is sold at all up-to-date toilet counters. Be sure to read large announcement of Miss Clayton's soon to appear in this paper. It tells how to instantly have a beautiful complexion and a soft, white, healthy skin everyone "just loves to touch."—Advertisement.

SERVICE MEN TO SPEAK AT THEATRES THIS EVENING

THREE SPECIAL TRAINS TO BRING AGGIES AND LIVE WIRE ROOTERS FROM LOGAN ON ARMISTICE DAY

Three special trains bearing rooters from Logan will pull into the Utah Idaho Central station on the morning of Armistice day, according to word received here by the members of the local chapter of the American Legion. The three trains will carry some of the live wires of Logan and the entire aggregation will invade Ogden pulling for a victory over the local American Legion gridiron team which will clash with the Aggie freshmen in the feature game of the day.

All Logan and Cache valley has been invited to attend the celebration and one hundred posters have been distributed in Cache valley and other northern points advertising the big celebration here. One hundred and fifty posters advertising the game have been distributed throughout Salt Lake and advance dope from the capital shows that the people of that city will be well represented here.

Roscoe Glasman and Norman Sims, games managers for the celebration, departed for northern Utah and south on Idaho this morning with two hundred posters in their possession. The cards will be distributed in all of the cities from Preston south to Ogden.

YOUR MEMBERSHIP NOW By Inez M. Ingebreten. At Ogden Theatre, Sunday Night.

Since the day when the Red Cross was first organized, it has been devoted to service and because service is the true standard of greatness, it has grown and flourished with the passing years until today it stands as a monument to everything that is great and good and noble in life.

During the recent war, America learned, in a very small measure, the meaning of the words "suffer" and "charity." Now that peace has come and most of our boys are back home with us again, let us not forget the many who have been left lonely and homeless, the thousands who are being wiped out by disease and famine which are following in the wake of war, the mothers, wives and families of our boys who are still "over there," some doing sentry duty on German territory, and the others who are now sleeping beneath French sod.

Some of the money from this Red Cross membership drive will be spent in Europe but most of it will be spent right here in America. There are a thousand and one places where it can be used at home.

In order for you to become a partner in this wonderful undertaking, it is not necessary that you give your time or your talent. The Red Cross has only been asked that each person give \$1. They have asked for 33,000 members in Ogden. Let's give them 26,000. Don't wait for the committee to call on you but hand in your membership now.

INTENSIVE CAMPAIGN MAPPED OUT BY RED CROSS

With the first day of the Red Cross membership opening this morning the workers are lining up for intensive work.

Mrs. Flo Williams Sebelier has been placed in charge of the personal canvass of the business section of the city for Red Cross memberships. Her work will include all the offices and establishments not conducting their own solicitation for memberships under the "One Hundred Per Cent" committee.

Mrs. H. H. Litzberg has been placed in charge of the general church, lodge and club work in the city other than that of the Mormon church.

The Red Cross booths are in active operation today and many of the organizations are already at work.

"THIRTEENTH CHAIR" MYSTERY STORY

"The Thirteenth Chair" the murder mystery story by Bayard Veiller that gripped New York "heaven" for over a year, is showing in its seven version by Leonore Perret for Pathe at the Ogden theatre where a large audience witnessed it at every performance yesterday. As Ogden has never seen the stage version of "The Thirteenth Chair" it gets the entire benefit of the prodigious that has been added, with the entire approval of the author, to the story in order to adapt it to moving picture demands.

The story is concerned with the murder of Stephen Lee, a cad of the worst sort. Suspicion falls upon Helen O'Neil, who is with him at the time he is stabbed, but she did not see the murderer. A friend of the murdered man is determined to solve the mystery and connives with a clairvoyant to hold a seance and call upon the spirit of the dead man to accuse the murderer. Before the spirit can answer, the man who asked the question is killed in the same manner as Lee. The problem to be solved then is, who killed Stephen Lee and the man in the "thirteenth chair"? The climax comes swiftly and with a smashing effect that would be ruined if we related more of the plot.

In the hands of an excellent cast the play is enhanced greatly. Yvonne Delva as the girl suspected of the murder is a beautiful, appealing figure and Creighton Hale a manly lover. Marie Shotwell rises to splendid heights in the role of the clairvoyant, and Marc McDermott plays the role of Stephen Lee with the fitness that characterizes all his portrayals.

Statement to Voters —BY— Mayor T. S. Browning NEW WATER SUPPLY PARAMOUNT

"I have had very little to say during the campaign. I have served the people of Ogden to the best of my ability for one term as mayor and the people are acquainted with my attitude on all public questions.

"It is my conviction that Ogden is starting on a period of substantial growth that will soon make it a city of at least 100,000 population. Therefore I think it of the highest importance to develop an adequate water supply. The great shortage of water during the last two seasons has demonstrated that a new water supply sufficient to provide for the future of Ogden is the first and paramount question confronting the city. I assisted as city councilman in the purchase of the present water system and also in the location and development of the present system of artesian wells and am familiar with the various plans undertaken by the city for increasing and making permanent our present supply. During the past two years the city administration has made, perfected and protected the filings and rights of the city in water reservoir and power sites and has made careful investigations to obtain the best possible location. From these investigations I am convinced that the Skull Crack location has the greatest possibilities and that view in supported by such eminent authorities and experts as Dr. Fortier and A. F. Parker. If elected, I shall continue my efforts to the end that Ogden shall have an adequate supply of water.

ENFORCEMENT OF LAW AND ORDER "I am for the strict enforcement of law and order at all times and under all conditions.

OUTFALL SEWER UNDERWAY
"All the preliminary and engineering work has been completed for the construction of the Ogden outfall sewer for which the people voted bonds and that work will be pushed to an early completion.

STREET PAVING AND OTHER IMPROVEMENTS
"In the matter of street paving and other improvements for which the people recently voted bonds, the work is well under way. These improvement plans include the completion of the entire Washington Avenue paving project from north to the south city limits, together with the street railway's portion of the paving.

WILL SEEK ADVICE OF CITIZENS

"I realize that from time to time other important problems of city government will be up for decision and if elected to the office of mayor I will seek advice and counsel from all citizens and will at all times take the people into my confidence for the solution of such questions.

"I appreciate the vote which was given me at the primaries and if the people choose to re-elect me Tuesday I shall in the future, as in the past, serve their interests to the best of my ability.

NON-UNION MEN WORKING.

WASHINGTON, Nov. 3.—Non-union miners in Pennsylvania and West Virginia were working full time today, according to reports to the Washington office of the operators. At some points the miners were trying to get out more than the normal production. In the Pennsylvania non-union fields, including Greensburg, Irwin, Connellsville and Legionaire, all mines were reported in full operation. There was no change in the situation around Pittsburgh.

Non-union men in the West Virginia fields embracing Pocahontas, Tug River, Windy, Logan and Williamson "went to work with their shirts off," messages said, in the hope of getting out more coal than was mined in any single day last week. Workers in the Fairmont, West Virginia, fields, whose output Saturday was 24 cars, sought today to beat that mark.

First reports from the central competitive fields—Ohio, Illinois, Indiana and western Pennsylvania—showed all union miners out.

Getting Too Fat? Try This—Reduce

People who don't grow too fat are the fortunate exception. But if you find the fat accumulating or already cumbersome, you will be wise to follow this suggestion, which is endorsed by thousands of people who know. Ask your druggist (or if you prefer write to the Marmola Co., 864 Woodward Avenue, Detroit, Mich.) for a large case of Marmola Prescription Tablets. \$1 is the price the world over. By doing this you will be safe from harmful drugs and be able to reduce two, three or four pounds a week without dieting or exercise.—Advertisement.

were received of strikers reporting for work Monday.

No attempts by owners to operate unionized mines were reported. In West Virginia 300 non-union mines were operating, according to reports from the West Virginia Coal Association. Early reports received at the offices of the Colorado Fuel and Iron company in Denver described the situation "as about the same as Saturday," where certain properties were being operated with reduced forces.

Business in some of the smaller Iowa cities was feeling the effects of the coal strike. Newton was in darkness Sunday night, while in Indianapolis, schools and theatres are closed.
